

CASE STUDY: POWER RENTAL

EMERGENCY STANDBY POWER FOR SHIPPING WAREHOUSE IN TEXAS

Distribution Facility, Fort Worth, TX

When winter weather threatened to shut down a Texas distribution hub, Garrett McKenzie mobilized fast — delivering one megawatt of backup power before the storm hit. The threat of being without power would cripple the warehouse and their shipping operations.

JOB SITE CHALLENGES

- Extremely time sensitive
- Cold/icy conditions underway and a race against a storm to deliver & setup

TEMPORARY POWER SOLUTIONS

- 1 x 1 Meg (1,000 kW) generator
- Power distribution cable
- Cable ramps & accessories

INSTALLATION & FIELD SUPPORT

- Equipment sizing & installation
- Full equipment management
- Equipment setup & breakdown

LOGISTICS & TRANSPORTATION

- 1 Semi truck
- 1 x service vehicle

THE SITUATION

As weather turned cold in Fort Worth, TX, a winter storm warning was in effect and businesses feared losing power. One shipping business took a proactive approach and contacted Garrett McKenzie for an immediate backup in the event they lost power, which would halt their operations.

THE RESPONSE

Wednesday morning, the client called Garrett McKenzie requesting 1 MW of power delivered and connected immediately. With temperatures plummeting, the facility knew that if they waited until after they needed the power, it may be too late. Their operations demanded power. The truck and trailer were loaded and GM technicians were on the road hours after the call.

THE EXECUTION

Equipment and technicians arrived quickly and began placing the generator and running cable to the facility. By sundown, the power cable was all in place and electricians had connected to house power, ready to be energized if needed. Snow was falling but the generator was ready on standby.

THE RESULT

While the generator was never needed, the facility avoided costly downtime risk and felt reassured knowing their operations were protected. The generator was called off rent the following week.

One Meg of standby power delivered and ready for a winter storm.

Racing a winter storm!
