

EMERGENCY POWER FOR STATE FACILITY IN WISCONSIN

Correctional Facility, Wisconsin

The call came in at 3:30 PM on Friday afternoon and a 1 Meg generator was delivered and connected within 2½ hours. The client was a state facility who just lost a backup generator and absolutely required power on site ASAP.

JOB SITE CHALLENGES

- Critical need and time sensitive
- Large container power to transport
- to deliver & setup

TEMPORARY POWER SOLUTIONS

- 1 x 1 Meg (1,000 kW) generator
- Power distribution cable
- Cable ramps & accessories

INSTALLATION & FIELD SUPPORT

- Equipment sizing & installation
- Full equipment management
- Equipment setup & breakdown

LOGISTICS & TRANSPORTATION

- 1 Semi truck

THE SITUATION

After the onsite backup generator failed, a state correctional facility was left with no backup power. They were heading into a weekend with the potential of summer storms and simply could not have a power outage. So, they called Garrett McKenzie for an emergency generator for the facility.

THE RESPONSE

Calling Garrett McKenzie at approximately 3:30PM, they requested a 1 Meg (1,000kW) generator needed on site in Wisconsin ASAP. This is a self contained trailer/generator that requires a semi truck and CDL licensed driver to haul. Fortunately, Garrett McKenzie has both the equipment and expertise in-house, with CDL drivers and semi trucks for rapid deployment.

THE EXECUTION

As the call ended, technicians immediately began testing the generator. Upon inspections of truck, generator and trailer, the truck and trailer were attached. A single technician with a CDL license began hauling the generator soon after the call ended. Destination: A correctional facility in Wisconsin.

THE RESULT

Within just 2½ hours of the call, the 1 MW generator was tested, hauled across state lines, and connected to the facility's switchgear. The correctional facility entered the weekend fully prepared for potential outages. They had backup power ready and operational, thanks to Garrett McKenzie's rapid response.

One Megawatt delivered to keep a penitentiary powered.
