

DEHUMIDIFICATION & POWER FOR WATER DAMAGED BUILDING

Residential Building in Wisconsin

After heavy Midwest storms saturated a residential building, restoration crews responded quickly to assess and respond to damages, soon turning to Garrett McKenzie for large scale drying support.

JOB SITE CHALLENGES

- Fast response needed
- Tight footprint for equipment, made easier with a crane for placement

DEHUMIDIFICATION

- 1 x 5,000 cfm desiccant dehumidifier
- Lay-flat & ducting

TEMPORARY POWER SOLUTIONS

- 1 x 100kW generator
- Power distribution cable & accessories

INSTALLATION & FIELD SUPPORT

- Equipment sizing & installation
- Full equipment management
- Equipment setup & breakdown

LOGISTICS & TRANSPORTATION

- 1 x Crane truck
- 1 x Service vehicle

THE SITUATION

A midwest storm sent heavy rains across Illinois and Wisconsin, and in one instance, flooding parts of the property and leaving the interior saturated. The building staff contacted a restoration team who quickly called Garrett McKenzie for large, desiccant dehumidifiers to help dry the interior.

THE RESPONSE

The call came in the morning with an urgent request and the GM team quickly mobilized, selecting the ideal equipment sizes and necessary accessories based on conversations with the restoration team. A large crane truck was loaded with a DH 5,000 and the generator was towed behind. Another team member assembled tools and within hours they were headed to the building

THE EXECUTION

Upon arrival, the crew unhooked the generator and used the crane truck to position the DH unit. The dehumidifier was connected to the generator and then lay flat was run through the interior. Less than 5 hours from the call, the job site was receiving dry air and recovery had begun.

THE RESULT

Thanks to the fast response of the GM team, as well as the powerful, deep drying capabilities of desiccant dehumidification, the interior of the building was dry within one week. Restoration crews completed their work quickly, which pleased the building staff and residents. All equipment was removed.

Garrett McKenzie's fast response helped lead to better results.

WHY CHOOSE GARRETT MCKENZIE

- ✓ 24/7/365 EMERGENCY RESPONSE
- ✓ NATIONWIDE COVERAGE
- ✓ RESTORATION-FOCUSED SOLUTIONS
- ✓ SCALABLE EQUIPMENT OPTIONS
- ✓ SITE SPECIFIC EQUIPMENT PLANNING

TEMPORARY POWER SOLUTIONS

- Generators up to 2,000kW
- Power distribution cable
- Amp & I-line panels
- ATS - Automatic transfer switches
- Transformers
- Portable fuel tanks

CLIMATE CONTROL

- Desiccant dehumidifiers
- LGR dehumidifiers
- Temporary heating units
- AC cooling systems
- DX heating units

INSTALLATION & FIELD SUPPORT

- Equipment sizing & install
- Equipment setup & breakdown
- Experienced onsite technicians

LOGISTICS & TRANSPORTATION

- Transport-ready fleet
- 30-ton crane truck
(8,055 lb. capacity / 52.5' reach)
- Nationwide rapid deployment

Garrett McKenzie's nationwide team rolls heavy and delivers results!
